Sakshi Singh

Bachelor of Science | +91 7667060660 | sakshisingh82003@gmail.com

Objective

Detail-oriented B.Sc. graduate with strong communication, problem-solving, and customer-service skills, seeking to begin a career as a Service Desk Associate. Eager to support end users with technical queries, resolve incidents efficiently, and contribute to a seamless digital workplace experience while continuously learning IT service management best practices.

Skills

- Customer Service & Communication: Active listening, clear verbal/written communication, empathy, professional email etiquette
- IT Service Desk Fundamentals: Incident logging, ticket categorization & prioritization, escalation procedures, SLA awareness
- ITSM & Ticketing Concepts: ITIL basics (Incident, Problem, Change Management), familiarity with ticketing tools (ServiceNow, Remedy concepts)
- Technical Support Basics: Windows OS troubleshooting, MS Office/O365 support, password resets, account unlocks, VPN & connectivity basics
- Problem-Solving: Root-cause identification, structured troubleshooting, multitasking under time pressure
- MS Excel / Google Sheets, MS Word, MS Outlook
- Team Collaboration: Working in shift-based support teams, coordinating with L2/L3 teams, knowledge-base documentation
- Basic Networking & Systems Awareness: LAN/Wi-Fi basics, hardware/software fundamentals, remote desktop support concepts

Projects

IT Service Desk Ticket Management Simulation

Simulated an end-to-end IT service desk workflow by logging sample user incidents (password resets, connectivity issues, software access requests), categorizing and prioritizing tickets by severity and SLA, and tracking them through resolution and closure using an Excel-based ticket tracker. Documented step-by-step resolution notes to build a mini knowledge base, reinforcing incident logging, escalation, and structured troubleshooting practices used in a Digital Workplace / Service Desk environment.
